Summary:

The First Amendment will provide an additional \$8,965.00 in CDBG funding, increasing the total CDBG investment to \$91,610.00; will amend the project description to include necessary survey costs and allow for expanded exterior fencing installation; will provide additional time for completion of the project by extending the term of the Agreement to December 31, 2022; and will extend the term of the land use restriction period to January 1, 2030.

Due to the exclusion of the cost for a survey of the property and the added installation and/or replacement of exterior fencing and electrical upgrades from the initial proposals for the project, additional funding is required for project completion. The original cost for the project was, \$82,645.00, with funding being provided by the County. The new cost of the project, based on the lowest bid received, is \$91,610.00. The additional funding is to cover the cost difference.

The Agreement requires that performance be completed by September 30, 2022. The Boys & Girls Club is unable to complete the project on or before the expiration date. It is necessary to extend the term of the Agreement three (3) months, to December 31, 2022. As a result of the additional CDBG funding and the term extension, it is necessary to extend the term of the Restricted Period 15 months, restricting the use of the property to serving low- and moderate-income youth through January 1, 2030.
