Strategic Plan:

Foster Continual Economic Growth and Vitality

4.4 Invest in infrastructure to meet current and future needs

Deliver First Class Services to the Public and Our Customers

5.3 Ensure effective and efficient delivery of county services and support

Summary:

The purpose of this contract is to deliver small to medium size construction-related projects on an as needed basis over the five-year contract duration utilizing the six awarded vendors.

Background Information:

On March 1, 2022, the Purchasing and Risk Management Division released an invitation to bid with six responsive bids received. Award recommended to F.H. Paschen, S.N. Nielsen & Associates LLC, Commercial Interiors, Inc., Centennial Contractors Enterprises, Inc., Caladesi Construction Co., Astra Construction Services and Foresight Construction Group. based on the lowest responsive, responsible price multipliers received meeting specifications.

In July 2007, the Board of County Commissioners approved the JOC construction delivery method for building repair, maintenance, and small to medium construction projects.

This JOC contract provides the County with a construction delivery system utilizing multiple contractors in a structured pricing program for construction projects. This system dramatically reduces construction administration time.

Qualified contractors bid an adjustment factor or multiplier against a fixed-priced construction catalog developed specifically for the County by the Gordian Group, the County's current JOC consultant. When a project is requested, pricing is derived from the construction catalog utilizing the fixed multiplier provided by each awarded contractor.

Fiscal Impact:

Total estimated expenditure not-to-exceed: \$24,000,000.00

The total contract amount will be divided among six (6) contractors for a \$4,000,000.00 upset limit to each vendor.

Funding is derived from the various Capital Improvement Program (CIP) funds as individual job orders are issued.
