**Background/Explanation:**

The World Health Organization (WHO) has officially characterized COVID-19 as a pandemic that constitutes a Public Health Emergency of International Concern. On March 1, 2020, Governor Ron DeSantis issued Executive Order Number 20-51, declaring that appropriate measures to control the spread of COVID-19 in the State of Florida are necessary, and accordingly the State Surgeon General and State Health Officer declared that a Public Health Emergency exists in the State of Florida.

On March 9, 2020, Governor Ron DeSantis issued Executive Order Number 20-52 declaring a State of Emergency for the state of Florida in furtherance of efforts to respond to and mitigate the effects of COVID-19 throughout the state.

The threat to vulnerable individuals and families constitutes a significant threat to public safety and welfare in Pinellas County. This requires a rapid expansion of vital services to meet local needs. The U.S. Treasury Department (Treasury) issued Guidance for State Governments relating to payments made available under section 601(a) of the Social Security Act and makes clear that COVID-19-related expenses that are reasonably necessary to the function of government satisfy the Fund's eligibility criteria and are eligible expenditures of the Coronavirus Relief Fund.

**Fiscal Impact:**

On May 5<sup>th</sup>, the Board adopted resolution 20-42 supplementing the Fiscal Year 2020 (FY20) Budget for unanticipated revenue received from the CARES Act. A budget amendment for FY21 will be brought forward separately, if needed. CARES Act funding in the amount of \$3,754,579.00 to support these agreements has been identified.

**Delegated Authority:**

Authority for the County Administrator to sign this Amendment is granted pursuant to Resolution 20-60 dated July 7, 2020.
