The

County will provide reimbursement of costs on a monthly basis.

Background Information:

On March 24, 2015, the Board of County Commissioners approved a non-competitive agreement with 211 for AEFAP on a “pilot” basis. An initial pilot program report covering the first six (6) months (April 2015-September 2015) of the program listed 509 approved assistance cases with client stories highlighting the importance of the help received. From October 2015 through March 2016, an additional 906 individuals received assistance with 132 individuals successfully transitioning from shelter into permanent housing.

The average time from case initiation to closure in the first year was just under 20 days including intake, time to receive documentation from clients, case decisions, and delivering assistance. Individuals are able to follow-up by email to provide required documentation to enhance accessibility. During the second quarter (January 2016-March 2016), 211 received 2,197 AEFAP program emails. The most frequent requests have been for rent and utility assistance which has helped to further stability and prevent homelessness. Clients are eligible to receive assistance once over a twelve-month period. Exceptions may be granted on a case-by-case basis depending on the unique situation or crisis.

In the first year of operation, the AEFAP program facilitated over 11,000 program calls. In addition to Emergency Financial Assistance, callers receive navigation and referrals to help meet their needs through 211.

With the initial success of the pilot program, Human Services is seeking to continue to build on the AEFAP model to provide assistance to residents in crisis. 211 has the unique ability to utilize their information system and resource database, and maintains the only free, confidential, multi-lingual, 24-hour hotline for access to community information, services and resources in Pinellas County. 211 also hosts a centralized, private, secure web-based database for health and human service providers to enter, manage and share client information electronically, known as the Tampa Bay Information Network (TBIN).

On February 18, 2016, the Purchasing Department released a notice of intent to procure these services on a sole source basis; no firms responded.
