Background/Explanation:

The Air Quality Division is recognized by the Environmental Protection Agency (EPA) and State of Florida Department of Environmental Protection as a local program and has authority to administer and enforce Federal Asbestos Regulations through program delegation.

Air Quality Division (AQD) personnel conducted an inspection of ongoing demolition activities on November 21, 2016, at the residential buildings located at 333, 333 ½, 337, 341, and 341 ½, 8th Street North, St. Petersburg, Florida.
