3/21/2017	1	Board of County Commissioners	approved as amended	Pass

### **Subject:**

Ordinance amending Chapter 166, Article VI of the County Land Development Code, relating to the administration of surface water assessments and fees.

### **Recommended Action:**

Adopt the proposed ordinance, following public comment, amending the Land Development Code (the Code) Chapter 166, Article VI, relating to the administration of surface water assessments and fees.

### **Strategic Plan:**

Practice Superior Environmental Stewardship

3.3 Protect and improve the quality of our water, air, and other natural resources

Deliver First Class Services to the Public and Our Customers

5.3 Ensure effective and efficient delivery of county services and support

### **Summary:**

These changes provide efficiencies by streamlining the annual process required to administer the surface water management services and improvement programs.

The proposed revisions to Chapter 166, Article VI of the Code accomplish the following:

- 1) If the Board proposed to adopt a new maximum rate for surface water management services then a "Surface Water Rate Resolution" shall be adopted at a public hearing;
- 2) If there is no recommended change to the maximum rate then a "Surface Water Rate Resolution" is not required;

3) Removes the requirement that the Board adopt a “Preliminary Rate Resolution” prior to adoption of an “Annual Rate Resolution.” This will no longer be required as the “Annual Rate Resolution” is removed;

4) Incorporates the apportionment methodology set forth in the “Initial Rate Resolution” (as amended by subsequent “Preliminary Rate Resolutions”) into the Ordinance.

**Background Information:**

The Board created the Surface Water Assessment Program through adoption of Ordinance No. 13-14 in June 2013. Since passage of the Ordinance, the Board has adopted preliminary and annual rate resolutions for Fiscal Years (FY) 14, 15, 16, and 17 at annual public hearings and amended the Surface Water Assessment Mitigation Policy.

No rate changes are proposed. The recommended amendments to the Code, as outlined, streamline the administrative procedures of the assessment program.

The request for authority to advertise this proposed amendment was approved by the Board on March 7, 2017.
