Summary:

This action allows for the rejection of the one (1) responsive bid submittal for the sale of four (4)

parcels, and approval of donation of the parcels to Habitat. Habitat was the sole bidder for these parcels. Due to a lack of response to the ITB, and Habitat's demonstrated success in affordable housing development in the Dansville community, it is recommended that the parcels be donated to Habitat for the construction of affordable housing.

Background Information:

The Dansville neighborhood is an unincorporated neighborhood within the Greater Ridgecrest Area, located in the mid-western section of the County. Housing construction is the final phase of Dansville redevelopment, which included the acquisition of 31 acres of property, elimination of slum and blight conditions through demolition of substandard structures, Brownfield designation and remediation, dedication of public-owned right-of-way, new streets, sidewalks, improved utilities, and stormwater drainage facilities.

The Board adopted Resolution 16-27 on April 26, 2016, declaring 67 County-owned parcels as surplus and making nine (9) parcels available for sale, through an ITB process, for the development of single-family housing. An ITB was issued on December 19, 2016 for four parcels. One bid submittal was received by the March 9, 2017 due date. The bid received was from Habitat and it met all the bid requirements.

Habitat plans to construct a single family house on each parcel. Potential Habitat homebuyers must meet qualification requirements. These requirements include an income between the range of 30% and 80% of the Area Median Income (AMI), a demonstrated housing need, having lived or worked in Pinellas County for at least one year and good credit. Once qualified, potential homebuyer candidates must complete an extensive homebuyer program that includes attending 16 homeownership classes, completing 250 to 350 sweat equity hours and saving for closing costs (\$500.00) and for first year's insurance (approximately \$1,000.00 to \$1,500.00). On average, homeowner candidates take one year to complete the program.

Deed restrictions will be placed on the parcels limiting the use of the property to single-family housing and specifying minimum construction requirements and conditions.
