Summary:

This action provides for the relocation of the Records Warehouse. The relocation will provide an improved protective environment for the housed records, as well as, an upgraded work environment for the stakeholders' employees.

Background Information:

Over the past thirty (30) years, the County has been housing millions of pages of criminal, medical, and court records at the current leased location. These records include case files for the determination of the cause and manner of death under certain circumstances, and defense files for indigent persons charged with criminal offenses. The State Attorney's Office, alone, handles over 132,000 criminal prosecution referrals annually.

The current warehouse location no longer meets the needs of the stakeholders. The current structure is a 38-year old metal building that has experienced roof leaks, site flooding, and an ongoing issue with vagrancy. Failure of this structure in a weather event would have catastrophic implications to the stored records.

The relocation allows the County to terminate the 25,288 rentable square feet (RSF) of leased space at the current warehouse at 5300 Ulmerton Road and relocate to the Mainstream Business Park, which is currently occupied by Real Estate Management (REM) operating as the Surplus Warehouse, and the Sheriff's Office for storage of Special Operations Vehicles. The Records Warehouse will add an additional 26,400 RSF to the Mainstream Business Park Agreement for a total of 57,600 RSF.

The Agreement will ensure that all County tenants within the Mainstream Business Park will be co-terminus with the initial term expiring 60 months after the County accepts possession of the built out space. The Agreement also provides two (2) renewal option terms of five (5) years each.

Fiscal Impact:

Currently, the annual rent at the 5300 Ulmerton Road location is \$10.71 per RSF and has an annual increase of 3.5%. The annual base rent at the Mainstream Business Park will be \$10.22 per RSF, and is subject to a three percent (3%) annual increase. The annual base rental rate includes tenant improvements in the amount of \$643,432.34, which consists of the addition of office space for the staff members, fire walls, electrical upgrades and air conditioning. In addition, Mainstream Partners IV, LLC will contribute \$95,966.00 towards the County's moving expenses, which is included in the tenant improvement total. There are one-time capital costs of \$11,000.00 for the installation of fiber optic communications and interior communications wiring, and \$28,637 for interior fencing to separate the agency spaces.
