**Summary:**

The County Housing and Community Development Department, Planning Division, has prepared language to adopt a new Property Rights Element into the County's Comprehensive Plan as required by recently adopted Florida House Bill 59. The Element includes one Goal, two associated Objectives, and two associated Policies. In crafting the new Element, County staff have reviewed guidance provided by the Florida Department of Economic Opportunity, Division of Community Affairs, the Florida Chapter of the American Planning Association, and 1000 Friends of Florida. Staff finds the proposed language for the County's new Property Rights Element in compliance with Statutory requirements.

**Background Information:**

Florida House Bill 59 was recently approved by the Florida Legislature and signed into law on June 29, 2021. The Bill became effective on July 1, 2021. The new law adds Section 163.3177(6)(i) to the Florida Statutes requiring local governments to adopt a property rights element into its comprehensive plan. Inclusion of this element is intended to protect private property rights and to ensure they are considered in local decision-making.

The Development Review Committee reviewed this application on August 9, 2021 and forwarded it to the Local Planning Agency who recommended approval by the Board at their September 17, 2021 meeting.
