Strategic Priorities:

Resilient Infrastructure and Environment

1.2 Maintain and enhance County infrastructure

Smart Service Delivery

4.2 Achieve and maintain a high level of customer satisfaction

Summary:

Resolution No. 22-35 dated May 10, 2022, declared the parent parcel surplus. The County is selling the 0.086-acre portion of the parcel to the sole adjoining property owner, Savoy LLC, for a sale price of \$16,163.00. The County is retaining a utility and drainage easement over the south 10 feet of the parcel.

Background Information:

The parent tract was acquired by the County in 1985 for right-of-way purposes, for McMullen Booth Road. The parent tract was declared surplus by Resolution 22-35. Transportation does not need the entire parent tract for right-of-way. The parcel is not a buildable lot. County staff determined that the western 47 feet of the parent tract is eligible for a private sale to the sole adjoining property owner. The Property Appraiser valued the sale property at \$16,163.00. As a condition of the sale, Public Works requires the retention of a utility and drainage easement along the south 10 feet of the property. Closing to occur within 90 days after contract execution. Buyer pays recording costs for the County Deed and all other closing costs.

Fiscal Impact:

Sale proceeds will be deposited into the General Fund.
